Received 6/9/47 16.9.1947

Order No. ... 19

Professor B.V.Raman,  
Raman Publications,  
P.O.Malleswaram.  
Bangalore. India..

Dear Prof. Raman,

I haven't yet received THE ASTROLOGICAL MAGAZINE, but I will answer your letter nevertheless.

Since you want to know my opinion about astrology I can tell you that I've been interested in this particular activity of the human mind since more than 30 years. As I am a psychologist I'm chiefly interested in the particular light the horoscope sheds on certain complications in the character. In cases of difficult psychological diagnosis I usually get a horoscope in order to have a further point of view from an entirely different angle. I must say that I very often found that the astrological data elucidated certain points which I otherwise would have been unable to understand. From such experiences I formed the opinion that astrology is of particular interest to the psychologist, since it contains a sort of psychological experience which we call "projected" - this means that we find the psychological facts as it were in the constellations. This originally gave rise to the idea that ~~these factors derive from the stars~~, whereas they are merely in a relation of synchronicity with them. I admit that this is a very curious fact which throws a peculiar light on the structure of the human mind.

What I miss in astrological literature is chiefly the statistical method by which certain fundamental facts could be scientifically established.

Hoping that this answer meets your request

I remain

yours sincerely

C.G. Jung.
